

Email sent on 8/27/2015 MAT 56 WebAssign e-book option Fall 2015

To MAT 56 Instructors:

Please find attached memo regarding MAT 56 e-book option.

As mentioned in the department meeting last Spring, the WebAssign e-book (online textbook) is now the same as the required textbook for MAT 56.

WebAssign is not a required homework component for MAT 56, although many students find it very powerful.

This semester, all MAT 56 students now have the option to purchase the e-book for the reduced price of \$55 regardless of whether an instructor uses WebAssign.

Students have the option to use the e-book alone, or use the e-book with the additional resources included for the same price. WebAssign login Instructions for students is attached in this email.

A WebAssign account has been created for each MAT 56 section associated with a unique class key. In addition to these sections, a special "e-book" section(not associated with any specific section) has been created.

A student must purchase an access code(with instructor's permission) and also obtain a class key from their instructor. An instructor has two possible class key options.

- a) use their MAT 56 section class key-obtain this class key from Tech Coordinator
- b) use the special "e-book" section class key-see attached memo for this class key.
